

Technical Data Sheet

URIWAVE
Urinal Screen

PROPERTIES:

- ☛ Translucent, highly fragranced urinal screen designed to deodorize the urinal area / restroom.
- ☛ Designed from flexible polymer, to conform and fit a wide range of urinals, helping protect the drain from materials that can cause blockages (for example gum, cigarette butts, etc.).
- ☛ Available in 6 custom fragrances, each one infused directly into the polymer screen provides effective and lasting odour controls for up to 4 weeks, depending on conditions and frequency of use.

DIRECTIONS:

- ☛ Each **UriWave** comes individually wrapped in cellophane – providing a barrier for fragrance evaporation during transport and storage.
- ☛ Remove any old screens from the urinal.
- ☛ Unwrap the new screen and place it over the drain area in the urinal
- ☛ Deodorizing begins immediately.

PHYSICAL PROPERTIES:

Appearance	: Translucent, colored fragranced polymer screen
Fragrances	: Spiced Apple, Mango, Herbal Mint, Cucumber Melon, Honey Suckle, Ocean Mist
Solubility	: Insoluble in water
Density	: 0.996
Vapor Density (Air = 1)	: >1
Evaporation Rate	: <1 (ethyl acetate = 1)

HEALTH AND SAFETY:

- ☛ Symbol: None.
- ☛ R-Phrases: None.
- ☛ S-Phrases: None.

Refer to safety data sheet for specific handling / safety information.
